EARTH DAY

22.04.2022

“The earth is what we all have in common.” – Wendell Berry

Earth Day is celebrated worldwide on 22nd of April every year to remind us that “the healthier our ecosystems are, the healthier the planet – and its people”.

With an aim to prepare its students to be **the engaged stewards of the environment**, **Hillwoods Academy** celebrated Earth Day with great enthusiasm on 22.04.22. A Special Assembly was organized to advocate the causes of environmental issues like deforestation and global warming. The importance of the Earth Day was discussed to educate and inspire the next generation of environmental leaders. A poster making competition was held to motivate the students to think and express their concern for global crisis. The students and the educators took a pledge to preserve and conserve their self-sustaining planet.

With an aim to spread awareness amongst the young and old alike to protect the mother earth, students took out a rally using colourful posters and impressive placards.

The day was concluded with an urge to save the environment, restore damaged ecosystems, and to live a more sustainable life.
